

California's Energy Vision

Women and the future of energy

Cal Poly Chumash Auditorium

May 10, 2010

Public Event: 12 –2 PM

Private reception: 3-5 PM (call for reservation 805 704 1810)
or contact Rochelle at: rochelle@a4nr.org

Four exciting women energy experts will come to San Luis Obispo May 10, 2010 to share their vision of California's energy future. In addition, the forum will include a special guest moderator. This is the first forum in California to bring together women clean energy providers, electric consumer advocates, and energy policy analysts to discuss what women can do to protect ratepayers, encourage clean energy and affect the policies shaping our future.

Julie Blunden The Vice-President of Public Policy and Corporate Communication for Sun Power will share her history in the renewable power industry and SunPower's plans to create innovated solar projects in San Luis Obispo County.

Haley Goodson has been a staff attorney at TURN (The Utility Reform Network) since 2003. Haley's legal work is focused on consumer protection and renewable/efficiency energy programs.

Carla Peterman is a doctoral candidate in the Energy and Resources Group, University of California Berkeley. Carla's primary research interests are renewable energy, technology innovation, and climate change mitigation policy.

Catherine Kunkel is a PhD candidate in the Energy and Resources Group at the University of California, Berkeley. Her work so far has been focused on state and local climate policies.
